

CALL FOR PAPER

  **The 5th International Conference on Agriculture and Life Sciences (ICALS)**

Theme :
Accelerating Transformation in Industrial Agriculture Through Sciences Implementation

Seminar Scope :

- Agronomy and Plant Protection
- Biotechnology and Biomolecule
- Agricultural Engineering and Technology
- Food Science and Smart Education for Plant Based-Diet
- Smart Social and Politics in Industrial Agriculture
- Smart Business for Agriculture and Healthy Food

Platform by

Place and Date :
Jember, Indonesia
November 3rd - 4th, 2021

Registration and more information :

- Website : icals.unej.ac.id
- Email : icals@unej.ac.id
- Contact Person : Zidna (+62-856-2875-728)
Arfiani (+62-896-4654-4946)

KEYNOTE SPEAKERS

 **Dr. Syahrul Yasin Limpo, S.H., M.H.***
Minister of Agriculture Republic of Indonesia

 **Dr. Ir. Iwan Taruna, M.Eng.***
Rector of University of Jember

Antioxidant Study of the Gambier Leaves By-Products into Tea with Red Ginger Powder Addition (Zingiber officinale Var. Rubrum) IK Budaraga1, DP Putra1 1 Department of Agricultural Product Technology, Faculty of Agriculture, Universitas Ekasakti, Veteran Dalam Street No. 26 B Pedang, Indonesia Abstract. Indonesia is the largest gambier producing country in the world and West Sumatra is the largest gambier producing center in Indonesia, it has become the province's leading commodity. Gambier sap production always produces by-products in the form of leftover leaves which can be developed into food products in the form of teabags.

This study aims to determine the antioxidant activity of by-products of gambier leaves with the addition of red

Antioxidant Study of the Gambier Leaves By-Products into Tea with Red Ginger Powder Addition *(Zingiber officinale Var. Rubrum)*

I Ketut Budaraga
Dian Pramana Putra
Universitas Ekasakti
2021

CONCLUSION

From the research that has been done, it can be concluded as follows:

- The addition of red ginger powder to tea by-products of gambier leaves was very significantly different from antioxidants. This test has met the requirements set by SNI.
- The correct formulation of red ginger powder and preferred by the panelists were in treatment E (40% red ginger powder concentration).
